SHAPE America Health Education School Reentry Webinar recording and PPT

SHAPE America's 2020-2021 School Reentry Considerations: K-12 Physical Education, Health Education, and Physical Activity

This document is intended to guide administrators, staff, and teachers as they prepare an environment for safe and supportive instruction using one of three models of learning: in-school instruction with physical distancing; distance learning; or hybrid learning.

SHAPE America School Reentry Considerations Teaching Strategies Workbook

This workbook is a companion document to SHAPE America's 2020-2021 School Reentry Considerations: K-12 Physical Education, Health Education, and Physical Activity. Use the workbook to explore teaching strategies for health and physical education related to: Equity, Inclusion and Accessibility, Social and Emotional Learning, Trauma-Sensitive Learning Environment, and Student Assessment.

SHAPE America Virtual Resources for Health and Physical Education #HPEatHome

This collection of resources from SHAPE America and other K-12 health and physical educators will help you continue to provide high-quality, standards-based lessons despite the circumstances surrounding COVID-19. Adapt, repurpose or use the resources provided as you see fit to best meet your needs.

health. moves. minds.

SHAPE America's service-learning program inspires healthy habits, fuels active minds, and teaches kids to thrive physically and emotionally. The program offers resources for HPE teachers to integrate into instruction, centering on social and emotional learning.

SHAPE America School Reentry Considerations At-Home Student Survey Template

Conducting an at-home student survey can help you learn more about your students and their home environment, which is especially important during this time of COVID-19. The template provided is intended as a starting point; customize it to suit your situation.

CDC EPA-Approved Disinfectants for COVID-19

A resource to help understand approved disinfectants for equipment and spaces, as well as how to disinfect items appropriately.

©2020 SHAPE America – Society of Health and Physical Educators Program Councils have compiled this list to help schools and school districts during the COVID-19 crisis. We serve the entire health and physical education community, and do not recommend or endorse any specific program product or service. For additional information, resources and guidance please visit shapeamerica.org/HEschoolreentry.

Using the SHAPE America School Reentry Considerations

CDC Signage, Print Materials & Infographics

Teachers may want to post signs as reminders for healthy habits. These materials are free for download and were developed by the CDC to support COVID-19 recommendations.

Content Specific Resources:

- Social and Emotional Learning
 - o SEL and HE best practices
 - SEL introduction
 - SHAPE America blog post
 - Professional Development on SEL
 - https://openphysed.teachable.com/

Trauma-Sensitive Teaching

- Creating a trauma-sensitive environment
- o https://traumasensitiveschools.org/
- o Trauma informed teaching strategies

Springboard to Active Schools

Physical activity breaks in the classroom

Project-Based Learning in HE

- o http://thehealthteacher.com/tag/project-based-learning/
- o PBL in an online environment

Technology/Presentation Resources:

- <u>Buncee</u> A web-based tool for creating interactive multimedia presentations. The
 user can integrate content from both external and internal sources as well as create
 content directly on each slide.
- Google Classroom Makes teaching more productive and meaningful by streamlining assignments, boosting collaboration, and fostering communication. Educators can create classes, distribute assignments, send feedback, and see everything in one place.
- Screencastify Software to create videos for your classes.
- Screencast-o-matic Free software to create videos for your students.
