Student Prizes

Learn how Booster's student prize program keeps students motivated throughout the fundraiser and see an example of a recent prize lineup.

ENGAGE STUDENTS

How Student Prizes Work

A Fresh Prize Program Every Year

Each year, Booster introduces a new lineup of student prizes to keep the fundraising experience exciting and engaging. Students receive a fun reward simply for registering on the fundraising platform, then continue earning additional incentives as they reach fundraising milestones throughout the campaign. While the specific prizes, fundraising levels, and themes change each year, the overall prize structure remains similar.

Students Earn as They Go

Students unlock new rewards as they reach fundraising milestones, helping maintain excitement and participation from kickoff through the final celebration.

Easy Prize Management

Teachers can easily monitor student prize eligibility and distribution through the Booster administrator dashboard throughout the fundraiser. As prizes are distributed, simply mark them as delivered with a single click, making it easy to track student rewards from start to finish.

Simple Prize Fulfillment

Booster takes care of student prize fulfillment, so you don't have to purchase or organize rewards yourself. Registration prizes are shipped before your fundraiser begins, and milestone prizes are shipped after your fundraiser concludes, making it easy to recognize students throughout the campaign.

Sample Prize Flyer

The following page features the 2025-2026 student prize flyer as an example of Booster's annual incentive program. While prizes, fundraising milestones, and themes change each year, you can expect a similar progression of registration rewards, fundraising milestone prizes, and bonus incentives.

Student Rewards

Earn all prizes at mybooster.com
